PROFESSIONAL SUMMARY

Backend engineer with 3 years of experience shipping Python services, automation systems and data pipelines for US companies and international clients, including two full-time remote roles. Strong in FastAPI, Django, Flask, PostgreSQL, Celery, Docker and AWS, with hands-on work integrating ML and LLM components into production systems. Upwork Top Rated Plus: 34 contracts, 4,000+ hours, 100% Job Success Score, 5.0 rating across 22 reviews. Available immediately for full-time roles.

PROFESSIONAL EXPERIENCE

Backend Engineer (Senior Python Developer)
Mar 2025 – Mar 2026

Checkmate · New York, United States · Remote, full-time

- Backend engineer on an AI product that verifies expert reports for legal teams; built and ran scheduled Python ETL pipelines that pull operational and observability data from Datadog and Langfuse into Snowflake for analytics and monitoring.
- Made ingestion reliable under Datadog API rate limits (HTTP 429) by reworking the ingestion workflow and processing logic; owned backend performance optimization and contributed to system-architecture decisions.
- Built a Streamlit analytics dashboard on AWS EC2 to visualize operational data and investigate trends; deployed services on Linux with Nginx, Gunicorn, systemd and Docker.

Software Engineer
Jun 2024 – May 2026

YittBox · Kentucky, United States · Remote · Full-time to Mar 2025, then part-time

- Built the company's internal Upwork automation system (job intake, tracking and proposal workflows) and financial-reporting automations used daily by the team.
- Delivered client projects for an IT-services firm: e-commerce/retail integrations, web-scraping and data pipelines, REST APIs and scheduled bots (Python, SQL Server, Linux/Windows).
- Promoted from the Upwork contract into a long-term role; both review cycles rated 5.0.

Freelance Software Engineer
Jun 2023 – Present

Upwork, Top Rated Plus · International clients (US, EU) · Remote

- Medical-AI inference backend (OrthoAI): FastAPI, case management, async Celery jobs, S3 storage, audit logging, rate limiting and signed PDF reports; deployed with Docker and production monitoring.
- Construction bid-intake platform: Django REST + React, Celery/Redis workers, Gmail/Outlook/IMAP ingestion, webhooks and document processing for estimating teams.
- Took over and completed stalled Python/Django and Flask codebases (Twilio, PandaDoc, Telegram shop bot on PostgreSQL), delivering production fixes under deadline.
- Document-extraction pipelines with OCR fallback and confidence scoring; LangGraph AI assistant with persistent sessions.

Software Engineer Intern
Feb 2024 – May 2024

3S Spring · Ariana, Tunisia

- Built a Windows automation application for mobile-game workflows with a computer-vision module for image recognition and object detection (Python, OpenCV).

Web Developer Intern
Jan 2023 – Feb 2023

TeamDoo · Manouba, Tunisia

- Developed a responsive corporate website and an admin dashboard for content and user management (Angular, Firebase).

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript

Backend: FastAPI, Django, Django REST Framework, Flask, SQLAlchemy, Celery, REST APIs, OAuth2/JWT, Pytest

Data & ML: ETL pipelines, PostgreSQL, MySQL, SQL Server, MongoDB, Redis, Pandas, OpenCV, PyTorch, Scikit-learn, LangChain/LangGraph

Automation: Selenium, Playwright, web scraping, API integrations (Gmail, Outlook, Twilio, Telegram, Google APIs)

Cloud & DevOps: AWS (Lambda, ECS, EKS, S3, API Gateway), Docker, Kubernetes, GitHub Actions, CI/CD, Linux, Git

EDUCATION, CERTIFICATIONS & LANGUAGES

Engineering Degree (Diplôme d'Ingénieur) in Computer Science — Data Science 2025 – 2028 (expected)
ESPRIM, Private Higher School of Engineering of Monastir · in progress, compatible with full-time work

Bachelor's Degree in Information Systems Development 2021 – 2024
Higher Institute of Technological Studies of Kélibia · Nabeul, Tunisia · EQF Level 6

Certifications: AWS Knowledge badges — Architecting, Compute (Amazon Web Services, 2024)
Languages: Arabic — Native · English — C1 (fluent, verified on Upwork) · French — B2 (professional)
